

Since the Arrival of the Earliest Pioneer settlers in the 1840's, Utahns have placed a high value on education and have continued to invest an unusually large share of their time and resources to support the educational endeavors. The return on this investment can be seen in the eight institutions that graduate a significant number of teachers each year in a wide range of disciplines. It can also be seen in the graduates who have become successful educators throughout the world. We invite you to recruit teachers at our institutions and to list your vacancies with us.
